3.3 Acres with rustic farm shed and power.

3.3 Acres with rustic farm shed and power.

This is a rare find a 3.3 acre block nestled in amongst large farms, so there is no way you can be built out.

You have all the benefits of living on a large farm but not all the work! The block came with an original rustic old farm shed with power connected.

A seasonal creek runs around the boundary of the block. In this market it won't last long.
